

# Weekly Class Newsletter

October 26, 2016

Happy Tuesday!!

This week we are looking at multiplication, division, addition and subtraction equations and finding the unknown. With our word problems to solve, we are using the strategy of adding up where they start with  $\times 5$  or  $\times 10$  and either add up or subtract. For example  $(4 \times 7)$  would be  $(4 \times 5 = 20)$  then add  $4 = 24$  then add  $4$  to show  $4 \times 7 = 28$ .

In reading, we are continuing our nonfiction unit focusing on finding text features to react to our stories and find evidence to support if they agree or disagree with the author. They are focusing on creating complete sentences this week with evidence and responding to text through questions.

Thank you for all your help at home and any questions, please feel free to email me!
